

Regarding the transfer of “505 Solvent Recovery Unit” of which details were shared as part of KAP disclosure on January 9, 2015, given the fact that the capacity utilization ratios of the unit have not reached the level anticipated in the draft plan, the company and DowAksa İleri Kompozit Malzemeler Sanayi Limited Şirketi agreed to increase the productivity of the plant by means of the scale economy that shall arise from the use of the unused capacity by Aksa Akrilik, to restructure the instalments for capital sum without altering the final due date in the payment plan, and postpone the capital instalments fir the next 24 months for 7 years on average. In that respect, 4.25% annual interest on the basis of USD currency shall be applicable for the postponed instalments and the interests shall continue to be payable for the 24 months subject to the postponement. Based on the relevant postponement of instalments, the interest revenue to be acquired during the reimbursement plan shall be around USD 2.2 million.

*Respectfully submitted to the information of public opinion,
Aksa Akrilik Kimya Sanayii A.Ş.*
